INTRODUCTION

Arc-Fi is a next-generation crypto trading platform designed to simplify and empower the trading experience for everyone, complete beginners to seasoned investors.

At its core, Arc-Fi offers a flexible, dual-system approach that gives users the freedom to choose how they engage with the market.

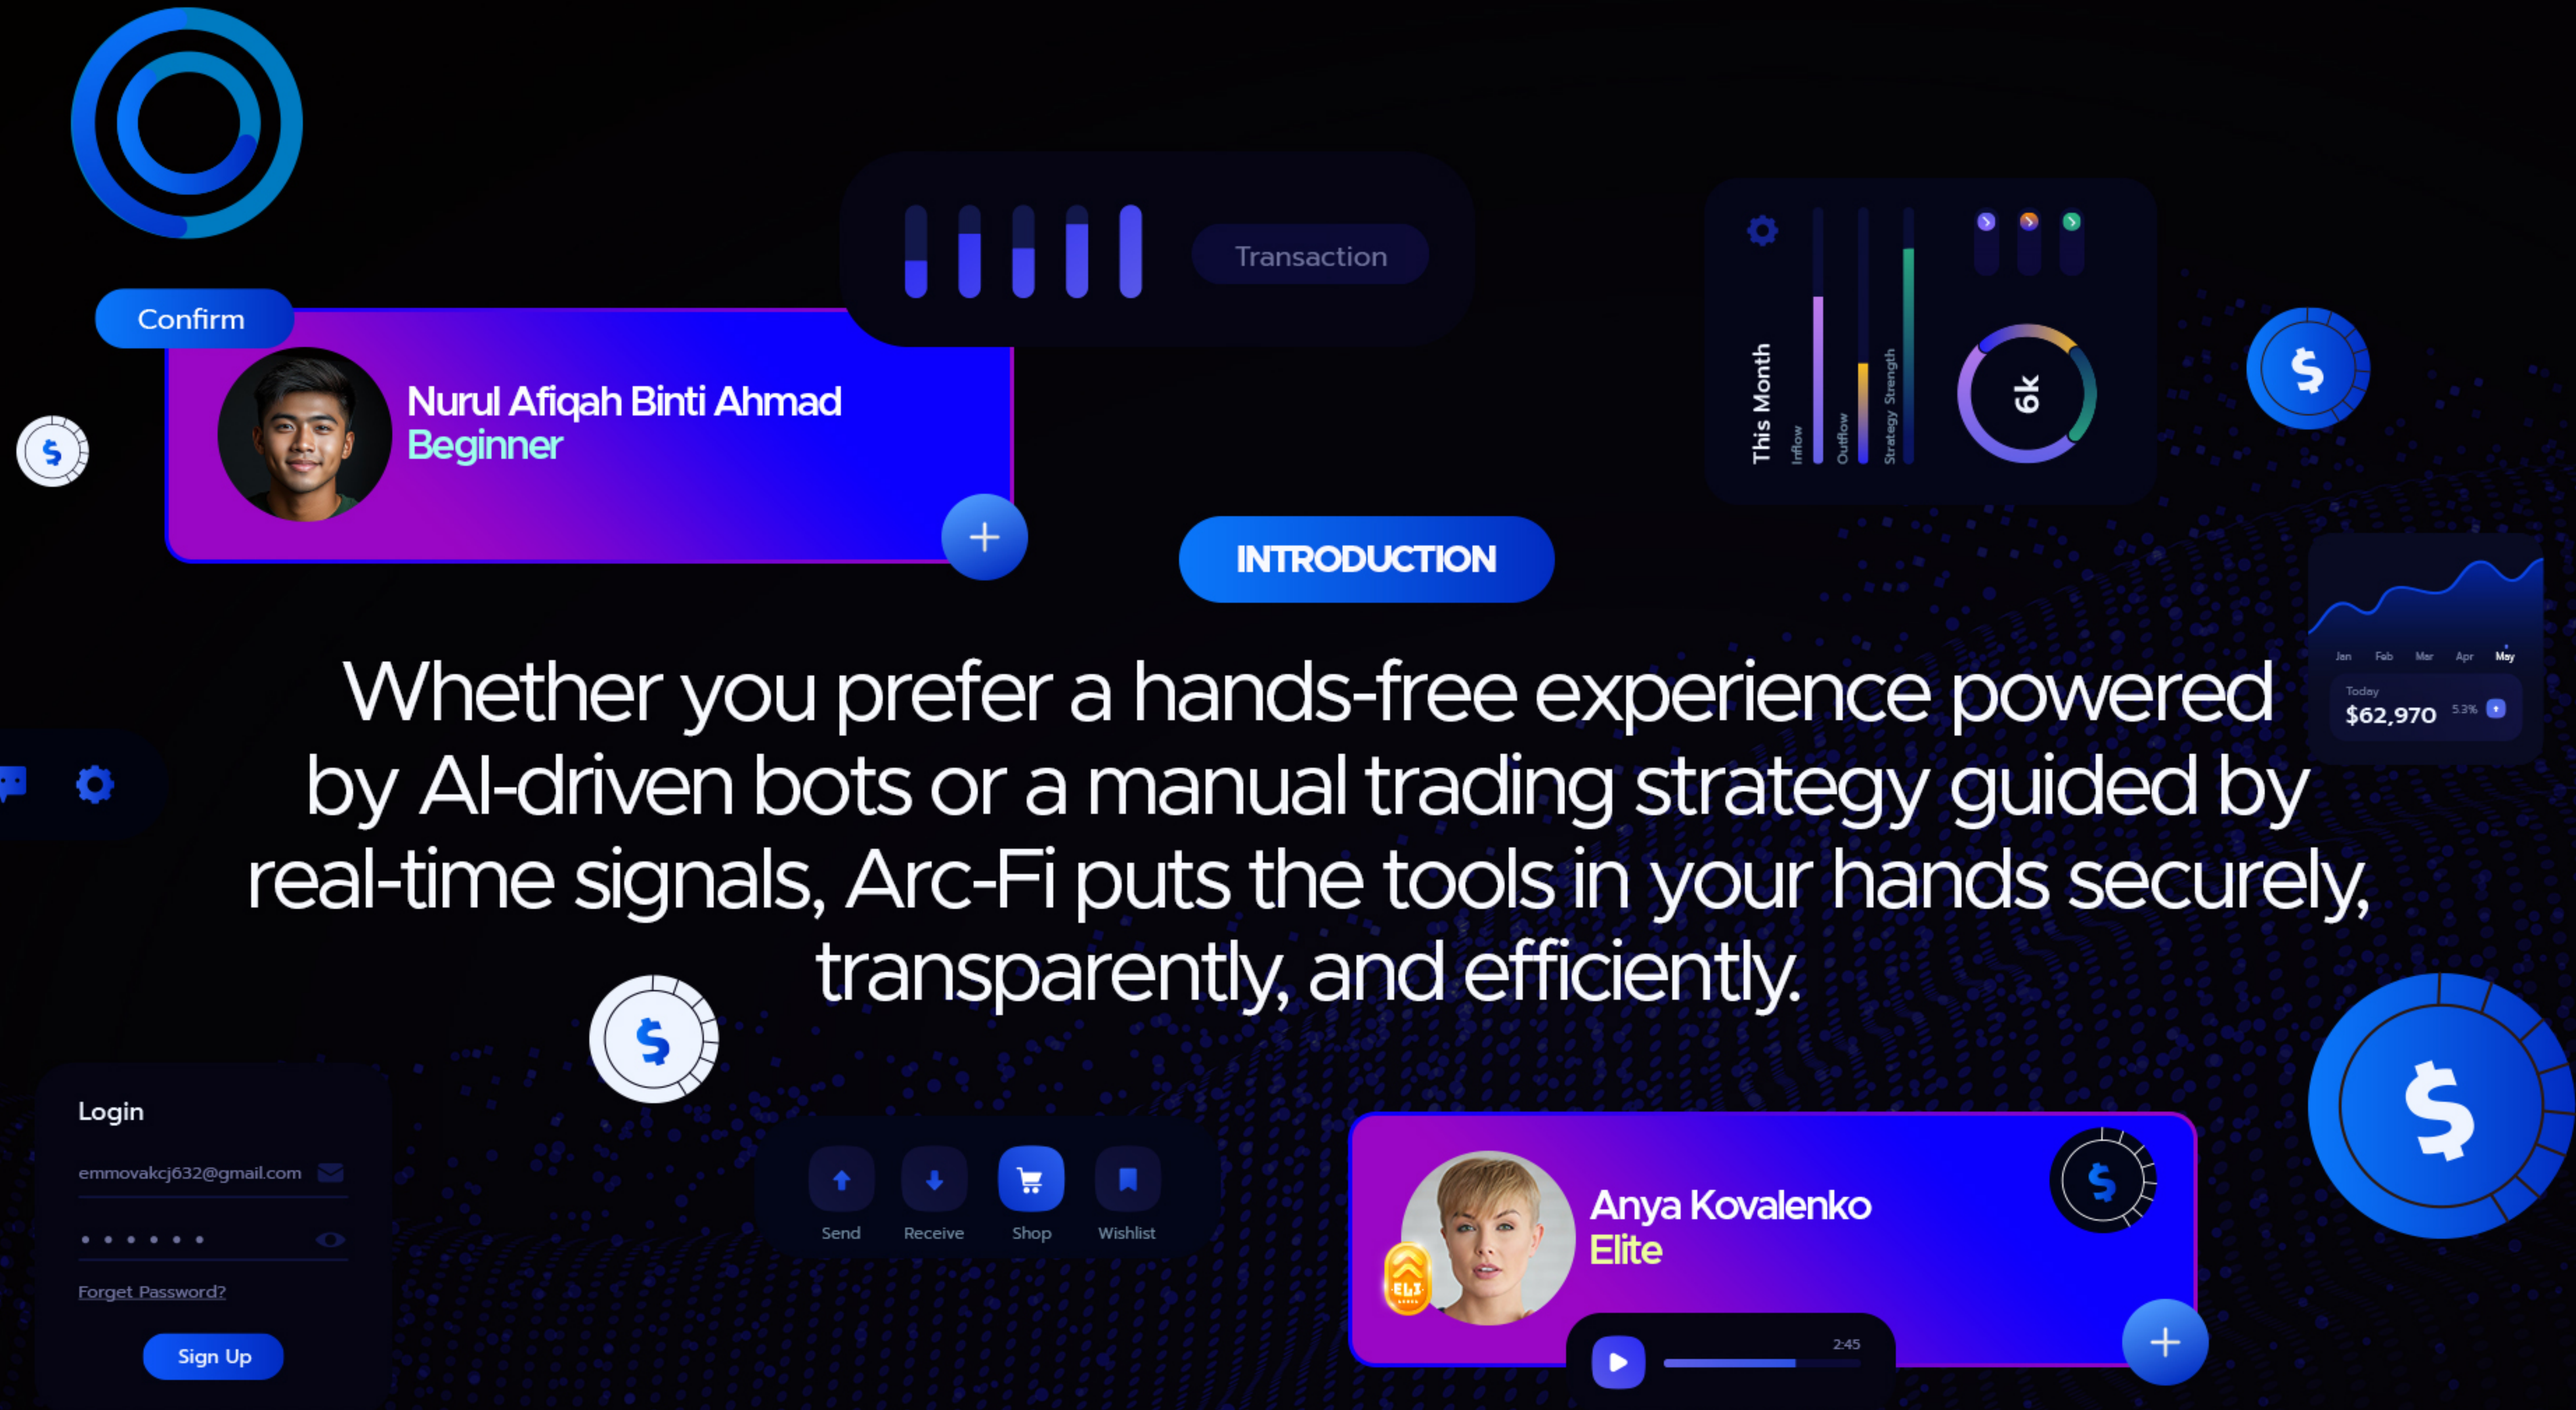

**The goal isn't to beat
the market every day,
it's to let the market not
beat you over time.**

- Valent Soisuvann
Chief Executive Officer (CEO), Arc-Fi

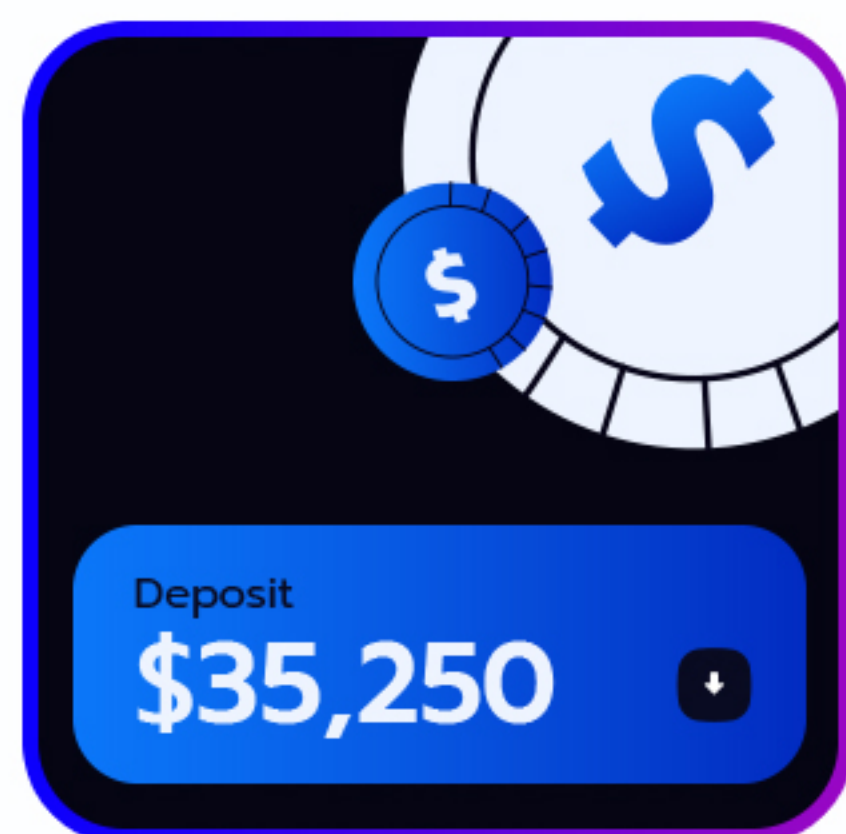

Whether you prefer a hands-free experience powered by AI-driven bots or a manual trading strategy guided by real-time signals, Arc-Fi puts the tools in your hands securely, transparently, and efficiently.

Weekly Residual Income Bonus Plan

To reward committed marketers and leaders, Arc-Fi introduces a weekly residual income bonus system based on team revenue milestones.

Once a team reaches a qualifying volume of total revenue, the marketer begins earning a percentage of fresh (recurring) deposits made by their entire team every week.

Bonus Structure

The bonus percentages and their corresponding milestones are outlined below:

Bonus Structure

Tier 1

\$450,000

Revenue Milestone

Weekly Bonus:

0.5%

of fresh team deposits

Details:

Earn 0.5% of all weekly recurring deposits once total team revenue reaches **\$450,000**.

7

Bonus Structure

Tier 2

\$800,000
Revenue Milestone

Weekly Bonus:

1%

of fresh team deposits

Details:

Earn **1%** of all weekly recurring deposits once total team revenue reaches **\$800,000**.

7

Bonus Structure

Tier 3

\$1,500,000
Revenue Milestone

Weekly Bonus:

1.3%

of fresh team deposits

Details:

Earn **1.3%** of all weekly recurring deposits once total team revenue reaches **\$1,500,000**.

7

These residuals are calculated and distributed weekly and are designed to provide long-term passive income to Arc-Fi leaders who build sustainable and high performing teams.

Security Tips

Encrypted Trade Execution

All bot activities and signal communications are encrypted and routed through secure protocols.

Multi-Factor Authentication (MFA)

Account access is protected with optional two-factor authentication and login alerts.

Security Tips

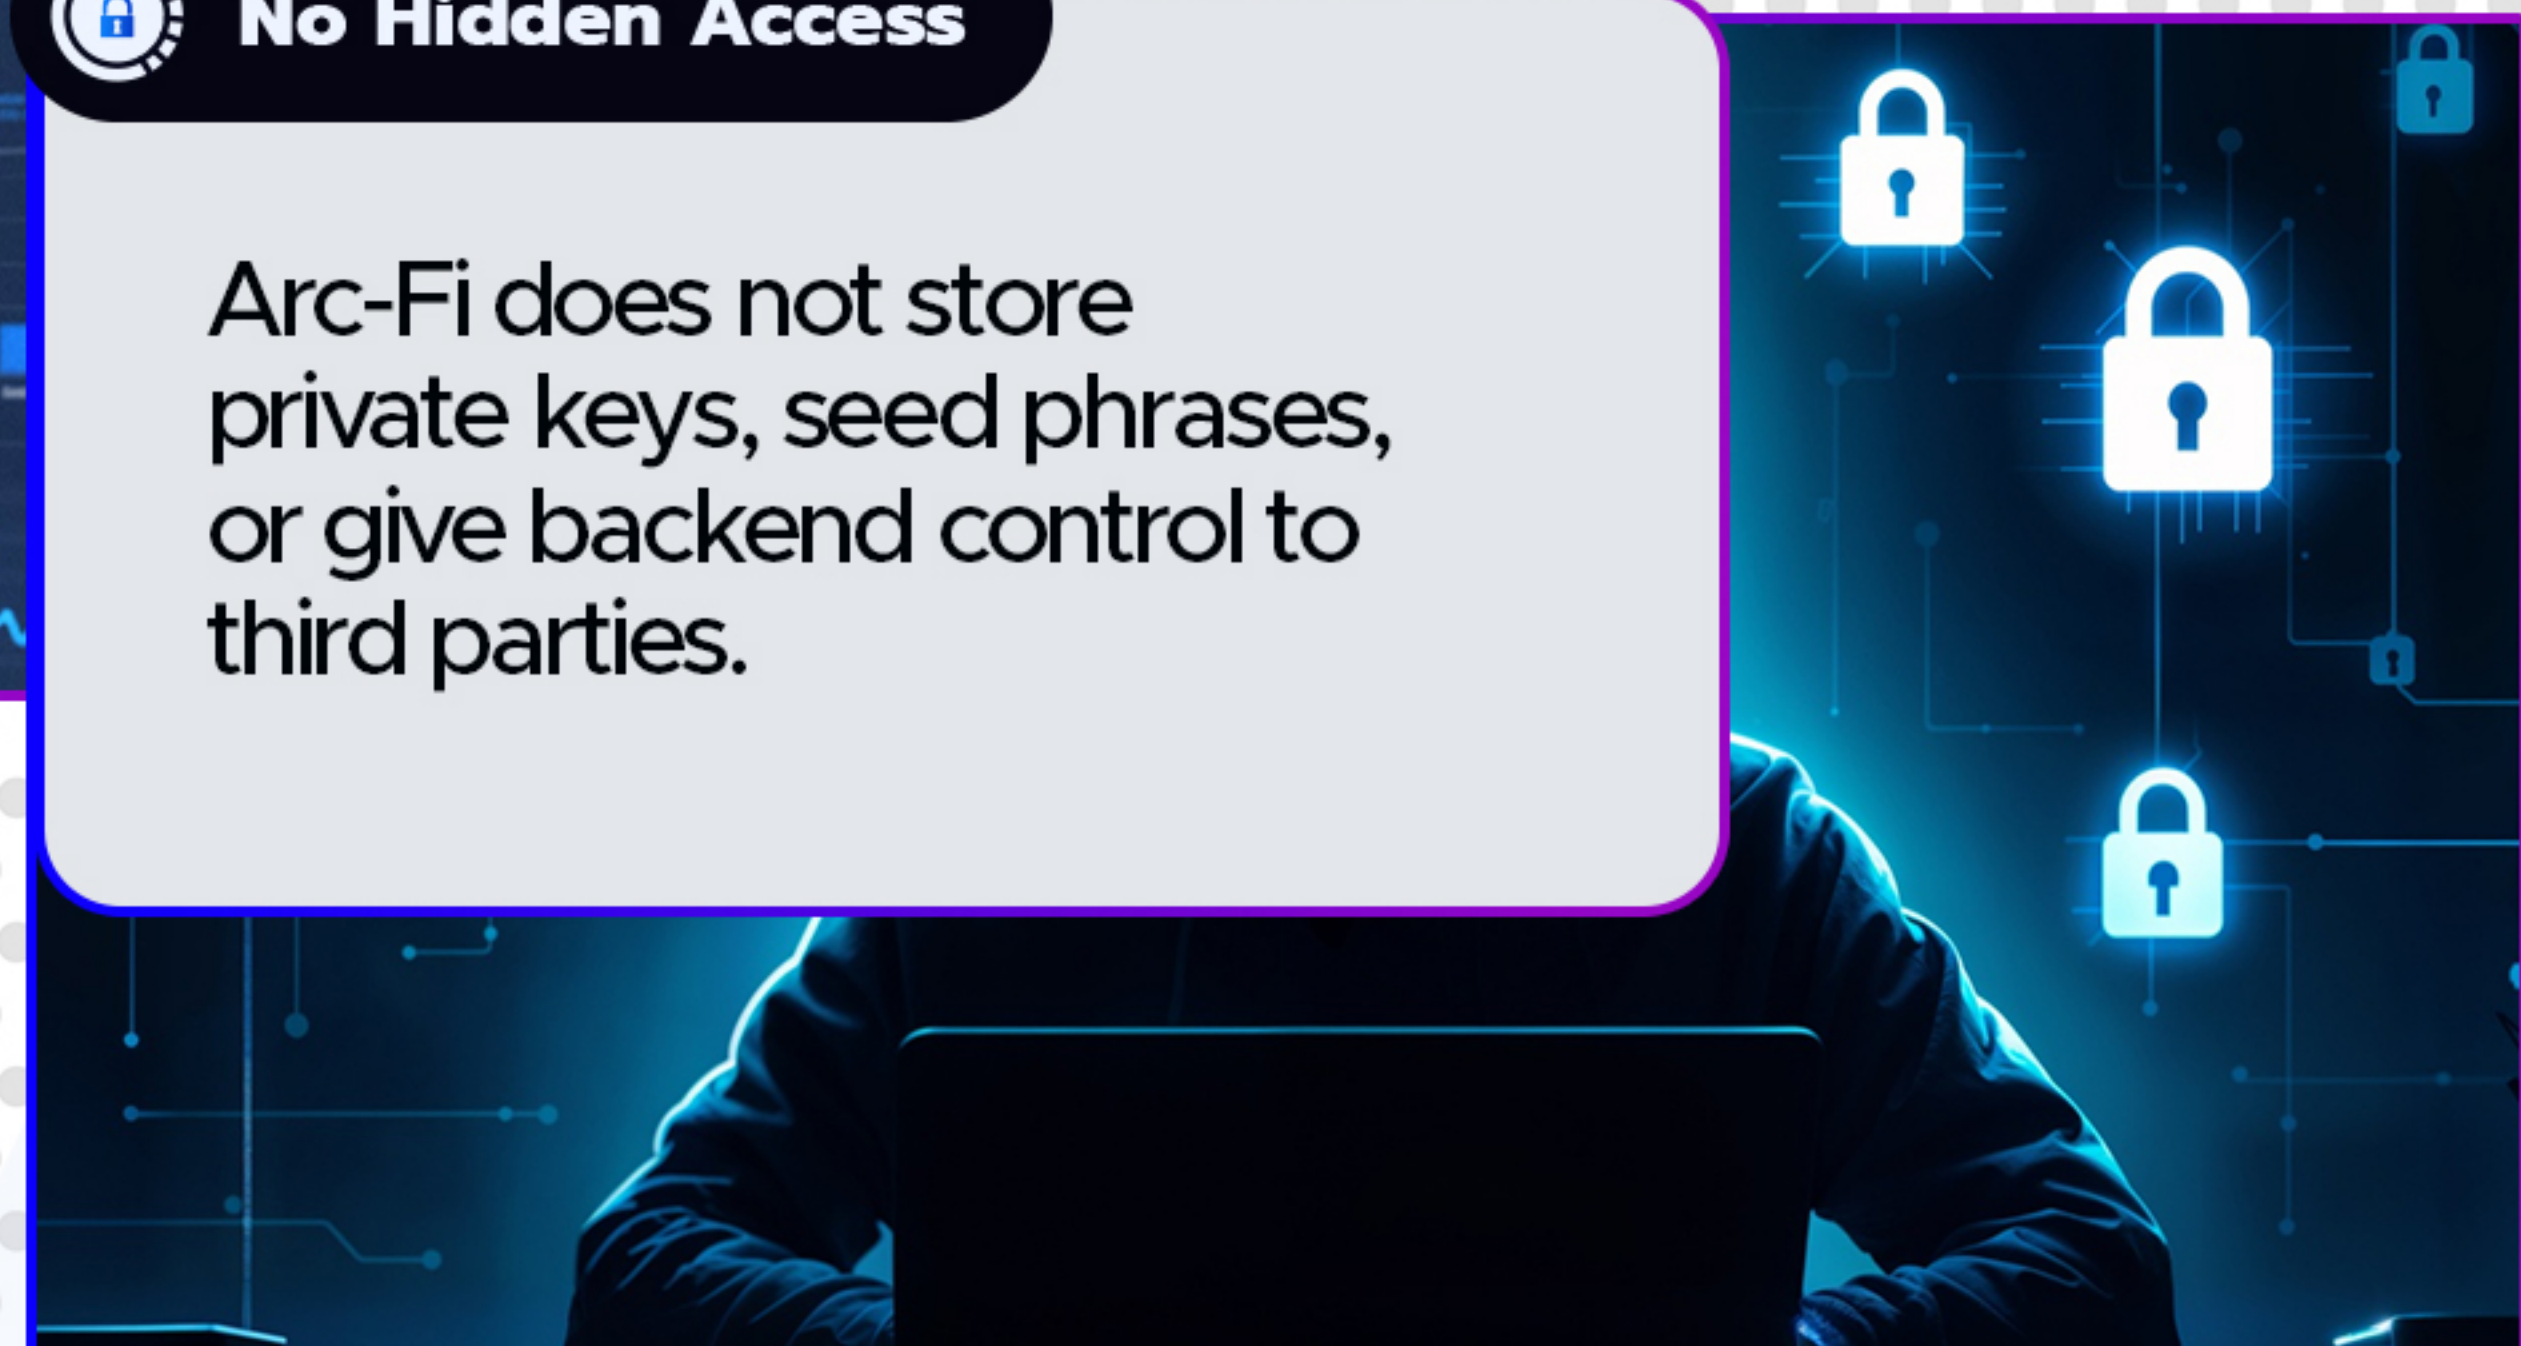

Real-Time Risk Monitoring

Our bots include dynamic risk protocols to minimize exposure during high volatility events.

No Hidden Access

Arc-Fi does not store private keys, seed phrases, or give backend control to third parties.

A final note from our CEO

Thank you for choosing to be part of this journey. From the start, our mission has been clear: to transform crypto trading into an experience that empowers everyone, whether you're taking your first steps or refining advanced strategies.

With our dual-system platform, you hold the future in your hands. Whether through the steady strength of AURA-01 or the dynamic edge of NEURA-X, our tools are designed to help you not just trade but thrive.

This is only the beginning.

Together, we are shaping the future of trading.
